### **MATH CLASS NEEDS**

2 Rulers (one for your use and one to donate to the class)

Protractor & Compass for Geometry

Small box of coloring pencils

Red pen

Dividers for binders marked with "Examples", "Homework", "Quizzes", and "Tests"

### **CALCULATORS for Algebra I and II and Geometry:**

The TI-83/83+/84+ is the calculator that we will be using this year. It is an integral part of the curriculum. Teachers will *not* loan calculators. The NC EOC (end of course) tests assume that all students are proficient with this technology. Though the calculators are expensive, students will be able to use them during their entire high school career. For an average cost of \$25 per year it is a decent expenditure to ensure meeting the four math requirements of high school. Be sure to indelibly inscribe your name on the calculator. Calculators may be found at any of the following locations or buy used from Craig's List:

Office Max

Wal-Mart

Staples

K-mart

Office Depot

Best Buy

Costco

Target

### **Each student needs to bring to their 1<sup>st</sup> period teacher:**

One ream of white copy paper

Two boxes of facial tissue

One Roll of Paper Towels

Hand Sanitizer

Dry Erase Markers
